## Mini Module No.2 – Written Skills

### What is a Forensic Scientist? What does a forensic scientist do?

1. Write a paragraph describing what a forensic scientist looks like. What are they wearing? What are their characteristics? How do they act?

---

---

---

---

2. Write a paragraph describing where your scientist works. What are they doing? What equipment are they using? What are they working on?

---

---

---

---

3. Draw your scientist at work. Use as many details from your paragraphs as possible in your drawing.
